Christenberry Art I-V

Week 2

This packet contains your second week of work. Please complete this work and turn it into the office to get the next week of work. If you need to contact me for any reason please do. You can contact me through:

Instagram: Misti Christenberry

Facebook: Misti Christenberry

Email: mchristenberry@rice-isd.org

Cell: 903-353-2003

Online activities:

If you have access to the internet at anytime and would like links for this class please contact me through any of the above and I will send you the direct links to my Youtube Channel Post for the most current assignments.

If you have online access then please access Google Classroom for everything you need for my class.

How to get Credit:

If you are able to take pictures of your work and send it to me please feel free to do that.

If you have no tech and cannot even text me a photo then complete the entire packet and get it back to the school at the end of the week to get the next weeks packet.

I miss you all and hope to see you back in the classroom soon.

Week Two- Photography

This week we will be studying photography. Everyday you have a different assignment. Students in Google Classroom will be doing the exact same thing!

Be creative and use what you have available for materials and information.

Remember this is art and I want to see your artistic ability.

Day 1-Photography

Directions: Read the passage and answer the questions.

Do you want to know why is photography important in everyday life?

So here's why taking pictures is important in most people's lives.....

Photography is important because it allows people to see the world from different points of view and to admire the most different scenarios and situations captured in a frozen moment.

Photography is so powerful that it allows you to bring experiences to others in the form of images and it enables the diffusion of information of things as they really are.

What is Photography?

Photography is a vision. Photography is art. Photography is imagination. Photography is observation. Photography is exploring the world and day to day to life with a camera.

Whether you are a professional or an amateur, if you've picked up a camera in your hands for the first time or if you are just shooting with your smartphone, you are probably feeling the same way as I do when taking a picture.

Photography is a powerful tool to tell a story, to share a moment, to spread information. Photography is a creative process and a way to express your idea through images and convey emotions to the viewer.

All I can say is that when you take a picture you are performing a powerful action. You are freezing time. You are enabling someone else to enjoy that moment in all the details and you are enabling that moment to be forever.

1. In your own words, why is photography important?

2. What 5 things did is say photography is...

1

2

3

4

5

3. Why is photography a powerful tool?

4. Why is it important that we document the events at this time?

Day 2-Photography for Documentation

This is a crazy time in our world. One none of us has seen or really know how to handle. We are living day by day. Every day brings new rules, surprises and struggles.

Today's assignment is to document "Social Distancing" and "The Covid-19 Pandemic".

What does it mean? When we look back at this in 20 years and tell the little kids about it what pictures will you show? What are you doing during this time? How would you document it with pictures?

You will take 3 pictures with your cell phone or your parents and send it to me. Don't forget your name so you get credit.

Send me 3 pictures that show what life is like during this time. What are you doing at home? If you go out are the streets empty, the grocery stores empty. Take pictures to show and document it.

Have fun taking pictures and be creative!

Day 3- 6ft!

Social distancing is 6 feet from each other. What exactly does that look like?

Your assignment today is to show me 6ft in 3 different ways!

That means you will take 3 different pictures showing 6ft. You can use whatever you want to show this. Be creative!

Send me 3 pictures showing 6ft apart and include you name.

Think outside the box and be creative!

Good luck!

Day 4- Important to me

Look back on the pictures you have sent me to document social distancing. Pick the two photographs you think are best and describe them to me and tell me why they are the best to document this time.

1.

2.

Day 5-Vocabulary

Fill in the chart with the correct definition.

Photography Vocabulary

Term	Definition
Aperture	As it pertains to photography
Bracketing	As it pertains to exposure
Circle(s) of confusion	As it pertains to photography
Depth-of-field	As it pertains to photography
Depth-of-Field Preview	As it pertains to photography
<i>f</i> /stop	As it pertains to photography; Include formula
Focal Length	As it pertains to photography
Hyperfocal Distance	As it pertains to photography
Infinity	As it pertains to photography Include symbol
